

Living in this moment

Verse 1

Hanging around with my loved ones

Just losing myself, losing myself

Walking my dogs, writing my songs

Just losing myself, losing myself

Verse 2

Trying to see the wood in the trees

Sun rays and shadows in a gentle breeze

Hiking over high mountain passes

Looking down at the valley surrounded by snow patches

Chorus

I don't need no manmade markers for my time

I can just have my clear mind

I can feel, I can breathe all the air around me

Just living in this moment

Living in this moment

Verse 3

Being on stage performing with my band

Being part of a collective musical tonic

Emptying my head of all that stuff needing done

Seeking out those places and times that are fun

Chorus

I don't need no manmade markers for my time

I can just have my clear mind

I can feel, I can breathe all the air around me

Just living in this moment

Outro

Just living in this moment

Living in this moment

Just living in the moment

Living in the moment
